

Experience

UX Design Lead

Oct. 2022 - Present

UX Designer

Oct. 2019 - Oct. 2022

CGCC USA - Bank of China

New York, NY

- Platform Transformation: Directed end-to-end redesign and ecosystem build of CGCC platforms by defining product roadmaps and establishing design systems, driving a **91% traffic increase**, expanding global reach from **26 to 89 countries**.
- Deployed the redesign that drove improved engagement for **4,000+ C-suite and Director-level users** across 44 Fortune Global 500 companies and **107% new user growth rate**.
- Design System Development: Architected scalable design systems and rapid prototyping workflows, which accelerated stakeholder alignment, ensured visual consistency.
- Cross-Functional Collaboration: Led weekly meetings with engineers and stakeholders to define product requirements and deliver cohesive design solutions.
- Rapid Prototyping: Delivered wireframes, interactive prototypes, and high-fidelity mockups under tight deadlines to effectively translate complex concepts and secure rapid stakeholder buy-in.
- AI & Innovation Advocacy: Championed the integration of generative AI tools and emerging technologies across design workflows to modernize processes and maximize efficiency.

Lead Product Designer

Jan. 2025 - Dec. 2025

UniUni Shipping

Denver, CO

(US App Design Contract)

- Led and own the UX strategy** for the US version Driver's App, driving improvements in last-mile delivery efficiency.
- Conducted user research, leveraging insights to drive design strategy and align stakeholders on key interaction updates.
- Optimized complex workflows and interaction models to simplify operations for **drivers, sorters, and facility managers**.
- Established Skill files, UI guidelines, accessibility standards, & strict design file hygiene to accelerate high-quality MVP delivery through **Model Context Protocol (MCP) and AI tools**.

AI Learning Tool Research Assistant

Jul. 2023 - May. 2024

Harvard University

Learning, Innovations, and Technology Lab

- Human-AI Interaction: Mapped the prompt-based experiences for the CS50 Duck AI Chatbot, translating complex AI capabilities into clear human-AI flows to drive UXR.
- AI Behavioral Strategy: Defined behavioral framework for **prompt-based interactions**, balancing automated support & long-term learning objectives to prioritize student self-efficacy.
- Prototyping: Made high-fidelity prototypes for testing, validating both the user experience and overall system behaviors.
- Technical Alignment: Leveraged prototyping to bridge design, research, and engineering, providing engineers with clear, actionable requirements grounded in **technical feasibility**.

AI Design Contractor

Oct. 2023 - Jan. 2024

Opus Clip

San Francisco, Remote

- Drove a **9% increase in Average Revenue Per User** by optimizing the onboarding funnel and integrating targeted monetization touchpoints for the video project rendering windows.
- Audited the user journey to isolate critical drop-off points; redesigned the core video editing interface to reduce friction and streamline workflows, resulting in improved 30 day retention and a **7% increase in Pro subscription conversions**.

Experience

UI/UX Designer
Aug. 2018 - Oct. 2019

United Nations
New York, NY

- Scaled the impact of internal tool across United Nations operations, influencing high-level stakeholder buy-in that secured **more than \$1 million in funding** for project expansion.
 - Co-designed Blue Line Leadership Hub from 0 to 1
 - Co-designed Global Onboarding Platform redesign
 - Owned Prince2 Project Management Toolkit
 - Owned Online Learning Framework Accessibility Guide

Web UI/UX Designer
Aug. 2014 - May. 2018

University of Colorado
Boulder, CO

- (Student Part Time)
- Redesigned the Student Academic Success Center’s website using new design system during the University’s web reform.
 - Developed high-fidelity prototypes & provide guidance to department stakeholders on **usability, accessibility**, and content prioritization, with a focus on **reducing user cognitive load**.

Skills

Design	Figma, Sketch, Adobe XD , InVision, Illustrator, Design Thinking, Information Architecture, Personas, Wireframing, User Journey, Prototyping, Accessibility, Usability Testing, Agile Methodology
Coding	HTML, CSS, JavaScript, simple React.js, Python, Xcode, Swift
Collaboration	Design workshop, Cross-functional teams communication, Stakeholder reviews, Facilitate design critique, Design Sprints
AI	Google Stitch, Claude Code & Design, Paper.dev, Pencil.design, Vibecoding, Generative AI, AI Prompt Writing, Prompt Engineering for UX, Agentic UX, AI Explainability and Design for Trust, User AI Interaction Patterns, Generative AI Design, Human-centered AI, Gemini, Notebook LM, ChatGPT, Antigravity, Google AI Studio

Education

Harvard University
Jun. 2023 - May. 2024

Master in **Learning, Design, Innovation, and Technology**

MIT
Aug. 2023 - May. 2024

Engineering Graduate Certificate **Technical Leadership**

University of Colorado
Boulder
Aug. 2014 - Aug. 2018

B.S. Technology, Arts and Media: **Interaction Design**
B.S. Strategic Communication
B.A. Economics
Minor in Business
